

We identify with success.

RFID HARDWARE SOLUTIONS

CYBRA's RFID platform software, EdgeMagic, is a full software solution to manage inventory, warehouse supply chain, asset tracking, shrink monitoring and so much more.

CYBRA offers the latest, most innovative hardware solutions in the RFID market. Fully supported by CYBRA's EdgeMagic RFID software, we build systems using the following best of breed hardware:

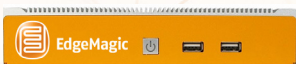

ALIEN RFID READERS

Featuring a new fifth-generation, self-optimizing reader architecture that intelligently adapts and configures based on its environment. Perfect for retail environments.

JAMISON RFID MOD 3 PORTALS

Jamison's RFID Industrial Portals™ Division produces a huge variety of rugged, easy to deploy RFID portals, housing structures, and mounting components.

CYBRA EDGEBOX

Designed especially for stores, this no maintenance device eliminates having to install or maintain any software on your servers or store PC.

IMPINJ XARRAY

The Impinj xArray gateway is a fixed infrastructure RFID reader system that provides always on, wide-area monitoring of RFID tagged items within a facility.

We identify with success.

INTEL IOT PLATFORM SOLUTION

Enables highest degree of inventory accuracy to support omni-channel solutions in retail.

CYBRA HAWK

The CYBRA-Hawk Loss Prevention Portal is the only antenna designed specifically for stores, in an easy to install, easy on the eyes enclosure.

CYBRA CAGE

Audit every inbound carton and outbound order automatically. In real time. The CYBRA RFID Cage can keep up with the fastest material handling equipment.

CYBRA LOCK & ENCODE SEALS

RFID Seals including a tamper evident, single use RFID seal for securing plastic distribution totes and high value items, and tamper evident SmartSeals designed for applications that require enhanced security.
