EDGEFINITY IOT
FOR EPC COMPLIANCE
RFID ELECTRONIC PRODUCT CODE COMPLIANCE SYSTEM

CYBRA EDGEFINITY IOT TURNS AN EPC MANDATE INTO R.O.I.

Are you a Retail Brand Owner who's been approached by a major retailer to participate in item-level RFID tagging? Do you need a solution that encodes EPC (Electronic Product Code) compliant RFID item tickets and validates orders by carton? Edgefinity IoT® EPC is a breakthrough RFID Electronic Product Code compliance system that is a complete solution for the challenge of EPC item-level compliance.

Edgefinity IoT EPC lets you implement an advanced, agile EPC compliance system without costly custom programming. A complete Edgefinity IoT EPC software and hardware installation takes days, not months to implement. With the ability to audit every inbound and outbound shipment, Edgefinity IoT reduces chargebacks, paying for itself many times over. Edgefinity IoT EPC is a perfect fit for apparel and consumer goods manufacturers of all sizes.

We identify with success.

EDGEFINITY IOT OVERVIEW

Edgefinity IoT lets you implement an advanced RFID inventory management system without any programming. Hardware and software installation takes weeks, not months to implement.

RFID Tag Validation and Association of Items to Cases to Pallets — Edgefinity IoT EPC manages pallet, carton, and item-pack relationships to retain the integrity of transport units with load units.

Edgefinity IoT for EPC includes EPCglobal Gen 2 SGTIN-96, SSCC-96, DOD-96 and other RFID Tag commissioning. It gives the ability to apply pallet/case/item EPC order validation.

Edgefinity IoT for EPC Geiger Counter runs on a mobile RFID reader to lead the operator to the exact item stored anywhere in inventory.

Edgefinity IoT for EPC is a scalable solution. Start with one printer and one reader. Add more hardware as your needs grow.

Edgefinity IoT for EPC Dashboards make it easy to visualize RFID tag data in context with your order, production, and sales data. You can analyze performance, spot trends, and act on the improved business intelligence.

Edgefinity IoT for EPC runs on IBM Power Systems (i/OS, AIX), Linux, Unix, Microsoft Windows server platforms, as well as on the cloud.

Of the top apparel companies by revenue (according to Apparel Magazine), 8 out of the top 10 public apparel companies are CYBRA customers, as well as 22 out of the top 50.

INTERESTED? LET'S TALK.

Leading software vendors such as Manhattan Associates and thousands of customers worldwide rely on CYBRA's award-winning software to save time and money. We can show you how to avoid chargebacks and implement a scalable RFID inventory and asset management system. Contact us today to learn how our auto-ID solutions can positively impact your bottom line.
