HAWK ANTENNA

Retail Loss Prevention Portal

Easy to Install. Easy on the Eyes.

Made for Retail

Easy to Install

Elegant Design

Prevents Theft

Due to the high cost of retail real estate, retailers try to put as much merchandise on display as possible. Current RFID offerings designed for warehouses are not practical in a retail environment because a distribution center dock door is a much broader read zone than a customer entrance to a all store. Warehouse RFID solutions will pick up too many false reads if placed in a store.

The CYBRA Hawk EAS/RFID Portal solves that problem by providing a very focused read zone in an easy to install, easy on the eyes enclosure.

CYBRA Hawk Antenna Overview

The CYBRA Hawk EAS/RFID Portal is a small wall mount purpose-built unit for collecting tag data. At 39" long and 12" wide, the CYBRA Hawk is lightweight and mounts quickly and easily. Using the CYBRA Hawk Portal, retailers can not only prevent theft and shrink with real-time, RFID-based electronic article surveillance (EAS) technology, but also track and manage inventory at the item level from the back room to the sales floor.

Sleek Design

Made for indoor, retail exit door applications, where a focused, yet robust read zone is needed, yet something small and functional is optimal.

Easy Installation

A truly "Plug and Play" solution, all cabling and connectors are in place. The CYBRA Hawk portal can be installed in minutes.

What's Included

- 18-gauge powder-coated steel chassis.
- Custom designed EAS-optimized RFID antennas.
- Easy wall-mountable lightweight design.
- Simple snap-on ABS white plastic cover.
- Mounting hardware and Installation Instructions.
- Optional 90-Degree wall or door frame mounting bracket.
- Full One-year warranty, extended warranty available

Environmental

- Operating Temp: 14° to +122° F/-10° to +50° C
- Storage Temp: -40° to +158° F/-40° to +70° C
- Humidity: 5-85% non-condensing

Physical Characteristics

- Dimensions: 39" L x 12" W x 3.1" D
- Weight: 14 lbs.
- Chassis: 18-gauge powder-coated steel
- Covers: White ABS
