# HAWK ANTENNA

## RETAIL LOSS PREVENTION PORTAL

EASY TO INSTALL. EASY ON THE EYES. EAS *PLUS* RFID.

Easy to Install

RFID Enabled

Perfect for Retail

Elegant Design

Prevents Theft

### CYBRA HAWK RFID/EAS OVERVIEW

Due to the high cost of retail real estate, retailers try to put as much merchandise on display as possible. Current RFID offerings designed for warehouses are not practical in a retail environment because a distribution center dock door is a much broader read zone than a customer entrance to a mall store. Warehouse RFID solutions will pick up too many false reads if placed in a store.

The CYBRA Hawk EAS/RFID Portal solves that problem by providing a very focused read zone in an easy to install, easy on the eyes enclosure.

**We identify with success.**

## CYBRA HAWK RFID/EAS PORTAL DETAILS

One of the key components of CYBRA's industry leading Edgefinity IoT for Retail RFID Inventory Management System, the CYBRA Hawk EAS/RFID Portal is a small wall mount purpose-built unit for collecting tag data. At 39" long and 12" wide, the CYBRA Hawk is lightweight and mounts quickly and easily.

Using the CYBRA Hawk Portal, retailers can not only prevent theft and shrink with real-time, RFID-based electronic article surveillance (EAS) technology, but also track and manage inventory at the item level from the back room to the sales floor.

### SLEEK DESIGN

The CYBRA Hawk design is made for indoor, retail exit door applications, where a focused, yet robust read zone is needed, yet something small and functional is optimal.

### EASY INSTALLATION

A truly "Plug and Play" solution, all cabling and connectors are in place. The CYBRA Hawk portal can be installed in minutes.

### CYBRA HAWK RFID/EAS PORTAL INCLUDES:

- ① 18-gauge powder-coated steel chassis.
- ① Custom designed EAS-optimized RFID antennas.
- ① Easy wall-mountable lightweight design.
- ① Simple snap-on ABS white plastic cover.
- ① Mounting hardware and Installation Instructions.
- ① Optional 90-Degree wall or door frame mounting bracket.
- ① Full One-year warranty, extended warranty available.

### INTERESTED? LET'S TALK.

CYBRA has many years of experience helping retail customers, as well as customers in a wide range of other industries, solve some of their most vexing auto-ID challenges. We have achieved success by deploying our unified RFID Platform that quickly and easily integrates with customer business software. Contact us today to learn how our auto-ID solutions can positively impact your bottom line.

CYBRA teamed up with Jamison RFID to develop the Hawk. Jamison has 100+ years in hardware development.

### PHYSICAL CHARACTERISTICS

- Dimensions: 39" L x 12" W x 3.1" D
- Weight: 14 lbs.
- Chassis: 18-gauge powder-coated steel
- Covers: White ABS

### ENVIRONMENTAL

- Operating Temperature: 14° to +122° F/-10° to +50° C
- Storage Temperature: -40° to +158° F/-40° to +70° C
- Humidity: 5-85% non-condensing
