# ASSET TRACKING

RFID Inventory & Asset Management System

To compete successfully in today's fast-paced industrial landscape, you need to achieve the highest degree of inventory accuracy. To maximize profits you must slash out of stock, cut shrinkage and reduce time spent on cycle counts and receiving.

The proven best way to achieve these objectives is with item-level RFID tagging. And the proven best way to manage your RFID tagged inventory is with CYBRA's Edgefinity IoT for RFID Inventory Management System. Edgefinity IoT provides a single platform to handle all of your RFID needs – both now and in the future.

Edgefinity IoT is the newest innovation from CYBRA Corporation, the makers of award-winning Auto-ID solutions for over 30 years, with thousands of satisfied customers worldwide. Let Edgefinity IoT improve your competitive edge.

Edgefinity IoT Overview

Edgefinity IoT is real time tracking software for organizations looking to gain real time visibility across large industrial environments. Whether you need to track large amounts of inventory, locate misplaced equipment, or ensure the safety of your employees, Edgefinity IoT lets you quickly deploy advanced, industrial strength real time tracking capabilities.

Search in Real-Time
Within Edgefinity IoT, you can add all the assets, goods and devices you want to track. Once loaded into Edgefinity, you can track and search for items, and find their exact locations on your facility's maps.

Monitor Equipment
Lower equipment replacement costs by tracking the usage of your expensive equipment and reusable assets. Monitor tools and equipment to know when service or maintenance is needed.

Track Inventory
To make the most of your budget, maintaining accurate inventory information is key. Receive alerts when items run low. And, running cycle counts only takes minutes, so you're always up to date.

Combined with Highest Performance Hardware

CYBRA provides a complete RFID solution, partnering with the recognized leaders in RFID equipment and tags to insure your project's success. Our strategic partnerships include all the marquee names in RFID.
